**Why one should attend this programme**

**Auditing Standards**

Every audit team member should be aware of the Audit Process and Framework which is laid down by the Standards. Today Companies Act requires that CA Firms follow the Auditing Standards mandatorily and also demonstrate the same in their work papers. Assurance engagements are nowadays subject to a greater risk and scrutiny with Peer Review as well as Quality Review processes including from the NFRA.

Proper appreciation and later, diligent application of these standards **at the grassroots level** will be the fundamental strength for any CA Firm. These seven sessions are developed in such a manner that the delegate will be able to relate to the standards to what they are actually doing in the audit firms. Acceptability of the processes will thus become a vogue.
